# FetalAI: head circumference report

HC18 U-Net segmentation · research prototype 11/12/2026, 7:50:15 PM

**Academic research prototype, not a medical device. Not clinically validated; must not be used for diagnosis or pregnancy-care decisions.**

| | |
|---|---|
| **Image** | 006_HC.png (800 × 540 px) |
| **Pixel spacing** | 0.06560565 mm/px |
| **Head detected** | yes |
| **Head circumference** | 67.3 mm |
| **Ellipse diameters** | 23.1 × 19.7 mm |
| **Head area** | 3.59 $cm^2$ |
| **Model confidence** | 97.9% |
| **Model version** | hc18-unet-epoch50 |

Method: U-Net segmentation, ellipse fit, perimeter by Ramanujan's approximation × pixel spacing. Trained on the HC18 dataset (van den Heuvel et al., PLoS ONE 2018).
