FetalAI: head circumference report

HC18 U-Net segmentation · research prototype 11/12/2026, 7:47:40 PM

Academic research prototype, not a medical device. Not clinically validated; must not be used for diagnosis or pregnancy-care decisions.

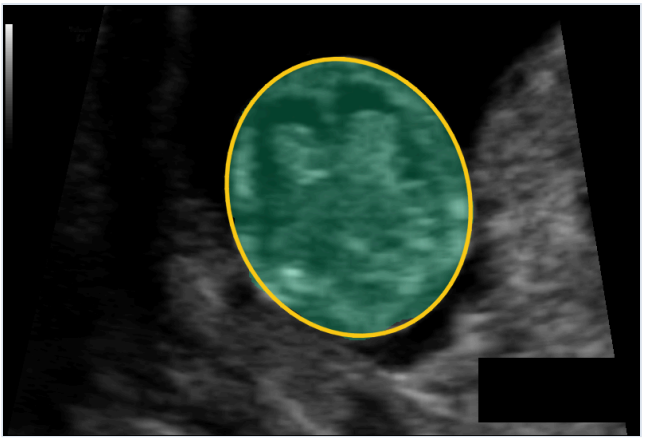

Image	006_HC.png (800 × 540 px)
Pixel spacing	0.06560565 mm/px
Head detected	yes
Head circumference	67.3 mm
Ellipse diameters	23.1 × 19.7 mm
Head area	3.59 cm^2
Model confidence	97.9%
Model version	hc18-unet-epoch50

Method: U-Net segmentation, ellipse fit, perimeter by Ramanujan's approximation × pixel spacing. Trained on the HC18 dataset (van den Heuvel et al., PLoS ONE 2018).
